December 9, 1997

TO: Those Listed
FROM: Greg Hahn
SUBJECT: Call for Photos to Include in Summo's 1997 Annual Report

In the past I have called upon my photo collection for inclusion in the Annual Reports. I find I didn't make it out to the project sites much this year, and therefore do not have many recent photos to consider for this year's annual report.

I am asking for volunteer entry's into the First Annual Photo Contest, the winners (first, second, third place, and possibly honorable mention, if we have enough entries) to be included in the next annual report, with acknowledgments to the photographer.

Photos should be of either a Summo property or in the immediate vicinity of a Summo property, preferably containing some form of activity (drilling, sampling, surveying, road building, re-seeding, etc.), copper minerals (outcrops, microscope), or laboratory work (column tests of ore or waste, etc.). Photos will be returned to all contestants, including those we select for inclusion in the Annual Report.

Please have your entries submitted to the Denver office by January 15th. Photos will be selected by February 1st.
